Section 4 First Aid Measures

Eye contact: Flush eyes with water for at least 15 minutes.

Skin contact: Wash affected area well with soap and water.

Ingestion: Do not take internally. If swallowed, call a physician or poison control center.

Inhalation: No specific treatment is necessary since this material is not likely to be hazardous by inhalation. If exposed to excessive levels of vapor, remove victim to fresh air and seek medical attention if cough or other symptoms develop.

Note to Physician: Treat symptomatically. This material is basically non-toxic. A small quantity (approximately one-tablespoon) is unlikely to cause harm.

Section 5 Fire Fighting Measures

Flash Point (method): > 200° F

Fire and Explosion Hazards: The liquid material will not burn. However, the dried paint film may burn in a fire.

Section 6 Accidental Release Measures

Personal Precautions: Keep unnecessary people away. Avoid skin contact by wearing chemical protective gloves, boots, and clothing when cleaning up spills. Avoid eye contact by wearing safety glasses, chemical splash goggles, or full-face shield.

Clean Up Methods: Keep unnecessary people away. Dike and contain spill with inert material (sand, earth, etc.) and transfer liquid to containers for recovery or disposal. Keep spill out of sewer and open bodies of water. Floors may be slippery; care should be exercised to avoid falls.

(See also Section 8 for information on Exposure Controls and Personal Protective Equipment)

Section 7 Handling and Storage

Handling: Avoid contact with eyes, skin, and clothing.

Storage: Keep from freezing. Keep container closed when not in use.

Section 8 Exposure Controls / Personal Protection

Personal Protective Equipment (PPE):

Eye Protection: Wear safety glasses, goggles or face shield to prevent eye and face contact.

Skin Protection: Wear gloves to prevent prolonged skin contact.

Respiratory Protection: None required under normal, intended use conditions. If vapor concentrations exceed permissible exposure limits or in areas of poor ventilation wear NIOSH approved respirator.

Protective Clothing: For brief contact, no special precautions other than clean body-covering clothing should be needed. When prolonged or frequent repeated contact with the material could occur, use protective clothing that is impervious to this material (such as tyvek).

General Hygiene Practices: Wash thoroughly after handling. Prevent eye contact. Avoid prolonged inhalation and skin contact.
